🐙 github.com/Chandramouli-Das

Experienced Data Science Strategy Specialist with expertise in predictive modeling, data processing algorithms, next-gen AI technologies, and LLMs. Demonstrated leadership in developing impactful solutions, team management. Seeking a Challenging Managerial Data Scientist role to leverage skills and drive strategic goals.

EDUCATION

M.Tech, Computer Engineering - Data Science

CGPA - **9.06 out of 10**, Major in Data Science, Machine learning, Deep learning, NLP domain

Kalinga Institute of Industrial Technology 📍
2019 - 2021 📅

PG Certification, Machine and Deep Learning

Major in Machine Learning and Deep Learning
Predictive models and Optimizations

International Institute of Information Technology 📍
2021 - 2021 📅

B.Tech, Computer Science and Engineering

CGPA - **7.8 out of 10**, Major in Machine Learning
Predictive Modeling in financial domain

Bengal Institute of Technology 📍
2015 - 2019 📅

TOOLS & LANGUAGES

Tools

- Anaconda • Jupyter • Spyder • PyCharm
- MS Office • Postman • Google Colab
- MS Excel • Github CoPilot • Numpy
- Pandas • Matplotlib • Seaborn • AZURE
- Tensorflow • Keras • PyTorch • NLTK

Domain Expertise

- Data Science • Generative AI
- Machine Learning • Deep Learning
- Data Analytics • Natural Language Processing
- Computer Vision • Statistics
- Cloud Computing • Large Language Models

Languages

- English • Bengali • Hindi

WORK EXPERIENCE

AI/ML Solution Architect - Proxima Systems

Leading a team of 5 in building GenAI products, specializing in RAG and Agentic AI models. Architecting scalable LLM-powered solutions and driving AI/ML innovation.

📍 Proxima Systems
📅 Sep 2024 - present

Data Scientist - Highradius Corporation

Led a team of 10+ in developing Deep Learning-based solutions using Transformers, LLMs, and other Machine Learning approaches for CashApp, Collections, Deductions, and Credit. Delivered AI-driven innovations within the AWS and Azure ecosystem while optimizing product performance at HighRadius.

📍 Highradius Technology Pvt Ltd
📅 June 2021 - Aug 2024

Technical Assistant - KIIT University

Full-time research role including B.Tech lab instruction, Python, ML, LLM

📍 Kalinga Institute of Industrial Technology
📅 June 2019 - May 2021

SKILLS

- LLM Fine-Tuning • Prompt Engineering
- Machine Learning • Deep Learning • NLP
- Model Distillation • Predictive Models
- Regression • Classification • Rest API
- Linear Regression • Logistic Regression
- Decision Tree • Random Forest • Bagging
- Boosting • Support Vector Machine
- Python • ANN • Optimization Algorithms
- XGBoost • Clustering • BERT/GPT-3/GPT-4
- Transfer Learning • Model Optimization

CERTIFICATES

PCAP™ - Certified Associate Python Programmer - OpenEdge Python Institute

[December 2023], Professional certification, prometric test - passed with 85% marks.

Machine Learning Specialization - IIT Roorkee

[Jan - Aug 2020]: Completed an eight-month specialization in Machine Learning, Deep Learning, and Python for Machine Learning.

Google IT Automation with Python - Professional Certificate

[Jul - Nov 2020]: Completed a six-month, six-course IT certificate from Google, covering Python, Git, and IT automation, requiring an 80% pass rate on all assessments.

Google It Support - Professional Certificate

[Feb - Jul 2020]: Completed a six-month, five-course IT support program from Google, including troubleshooting, networking, and security.

PERSONAL INTERESTS

 Computer Gaming  Artificial Intelligence
 Music  Stock Market  Long Rides

SELECTED PROJECTS

Sherlock GPT - Text to SQL

Enhanced prompt engineering in GPT-4o for improved Text-to-SQL accuracy and schema adherence for different databases and tables.

Automated PH - HR Domain Product

Developed a RAG-based model leveraging vector databases to create an unbiased, data-driven employee life cycle management system from scratch.

Custom Prompting Extraction - Cashapp Domain

Utilized a Gen AI approach with GPT-4 Turbo, entity extraction, and prompt engineering to develop an unbiased, data-driven employee life cycle management system from scratch.

Block Order Release Recommendation - Credit Domain

Developed a feature for Highradius Credit Product feature to predict where the blocked order will be released or not will be blocked or not.

Proactive Block Order Prediction - Credit Domain

Highradius Credit Product feature, predicting an upcoming order will be blocked or not.

Deduction Validity Predictor - Deduction Domain

Highradius Deduction Product feature, A machine learning based approach that will predicting if it is a valid deduction or not.

Payment Date Prediction - Accounts Receivable

Highradius Collection Product, A machine learning based approach for Cash Flow forecasting, classification based approach.

CAC Optimizer - Deep Optimization Approach

OTHER PROJECTS

-  Stock Market Prediction - LSTM Approach
-  Skin Cancer Prediction - CNN Models
-  Detecting Pneumonia from Chest X-rays - CNN
-  Telecom Churn Prediction - Classification
-  Medical Expenses Prediction - Regression
-  Loan Application Status - Regression
-  Climate Prediction - Classification Approach
-  Investment Analysis - Data Analysis Usecase
